TANUJA PRATAP BAGUL

MY HOBBY

I am Tanuja Pratap Bagul. I am a student at the Indian School Al Buraimi. I study in Grade 2. Here, I am writing about my favourite hobby. I like to do many things in my free time; for example- collecting coins, stickers, reading story books, drawing and painting, and playing outdoor games. But among all these activities, my favourite hobby is 'drawing and painting'. I like to draw beautiful pictures. Whenever I get free time, I draw beautiful pictures and I colour them. I don't feel bored while drawing and colouring the pictures. I love drawing and painting so much.

I started drawing pictures from Kindergarten 1. After completing my homework and studying all the subjects, I find time for my hobby. It helps me to refresh myself.

Thank you for reading my article.

This is my drawing-

DID YOU KNOW?

Your nose and ears continue growing for your entire life.

Apples float on water!

The Shark is the only fish that can blink with both eyes.

Owls can't move their eyeball.

Horses and cows sleep standing up.

It is impossible to lick your own elbow.

A hippopotamus can run faster than a man.

Venus spins clockwise. It's the only planet that does!

An ostrich's eye is bigger than its brain.

A fox uses its tail to communicate with other foxes.

Human teeth are as strong as shark teeth!

A Little Turtle - Poem on Animals

I am a little turtle
I crawl so slow,
I carry my house
Wherever I go.

When I get tired
I put in my head,
My legs and my tail
And I go to bed. ---

THE WONDERFUL WORLD OF TREES

Trees are incredible living things that make our world a better place! They are like big, tall friends standing tall and strong all around us. Have you ever noticed how many different kinds of trees are there? Some trees have leaves that change color when they fall, while others have leaves that stay green all year!!

Do you know what trees need to grow big and strong? Just like us, trees need food, water, and sunshine! Their food comes from the soil where they plant their roots. The roots of a tree are like straws that drink water from the ground.

Trees use their leaves to catch sunlight, like we use umbrellas to catch raindrops. They use the sunlight to prepare the food.

Not only do trees give us shade to play under on sunny days, but they also give us something very important - oxygen!, which is very important for us to stay alive.

Trees are homes to many animals too. Birds build nests on their branches, squirrels find nuts to eat, and insects live in the bark. Trees are like a big house for our animal friends!

We can help take care of trees by not littering in parks where they live, watering young trees when they're thirsty, and being gentle with their branches. Trees are our friends, and taking care of them is like taking care of our friends too!

So, next time you see a tree, give it a smile and a thank you for all the wonderful things it does for us and our planet. Trees are truly amazing!

Peacock

Peacock spreads his tail.
Surprise!
A feather-ocean..... full of eyes.
One-by-one, they stare at me.
I look at them and see the sea.
And suddenly, I've left the Zoo.
I whirl through water, deep and blue.

My mind is fresh and watery-wild
I feel like I'm a mermaid child.
I even ride a friendly whale
swimming here, in Peacock's tail.

TRAVELOGUE

Travelling is my most favorite's Hobby. I have never felt bore to outskirts anywhere.

In April, 2023, I started my journey with my family to visit most popular place in Europe. Among the places I have mentioned few interesting's events that's cheered us a lot.

Our first stop was to sail down the Rhine River in Germany. The river was wide, and were beautiful landscapes on both sides. We saw boats and ships gracefully gliding on the water, and it felt like we were on an exciting adventure.

Next, our journey took us to a magical place called Lauterbrunnen Village in Switzerland. It was a small village surrounded by tall mountains and waterfalls. The houses looked like they were from a fairy tale, and we could hear the soothing sound of water falling from the cliffs.

Then, we headed to explore the Louvre Museum in Paris. This place was enormous and filled with treasures from the past. The most famous painting, the Mona Lisa, smiled at us from the walls. We learned so many interesting's things about art and history.

Eifel Tower, Paris

Hereafter, we also visited the Eiffel Tower. It was like a giant iron tower that touched the sky. At night, it lit up with beautiful colors, making the city sparkle like a fairyland.

We also explored a Tulip Garden in Netherlands. Picture a place filled with flowers of all colors - red, pink, yellow, and more! Springtime was the best, as the tulips bloomed, creating a rainbow on the ground. It was like walking in a garden of dreams.

Our adventure was like a dream, filled with tall towers, colorful gardens, flowing rivers, magical waterfalls, ancient museums, and charming villages. We couldn't believe how wonderful our world could be! And so, our journey ended, leaving us with memories that would last a lifetime.
